For Immediate Release

Care Food Industries Sdn Bhd Named Global 100's Food Manufacturer of the Year 2025

Care Food Industries Sdn Bhd, a leading innovator in the food manufacturing sector, is proud to announce its prestigious recognition as Food Manufacturer of the Year 2025 by Global 100. This esteemed award highlights Care Food Industries' unwavering commitment to excellence, innovation, and dedication to producing high-quality food products.

Global 100 is a renowned annual award program that acknowledges companies for their outstanding achievements across various industries worldwide. Being named Food Manufacturer of the Year 2025 reflects Care Food Industries' dedication to meeting global food safety and quality standards, as well as its leadership in the industry.

Elevating Malaysian Cuisine

Founded with the vision of preserving and promoting Malaysia's rich culinary heritage, Care Food Industries has made a significant impact on both local and international markets. The company is known for its diverse range of ready-to-use sauces, pastes, marinades, and instant meal solutions under its AsianMeals brand. These products capture authentic Asian flavours, providing a perfect blend of traditional recipes and modern food technology to deliver premium, restaurant-quality dishes.

With a product line that includes iconic Asian favourites like sambal, curries, and rendang pastes, Care Food Industries has successfully positioned itself as a global leader in Asian cuisine. The company's products are not only convenient and easy to use but also made from natural ingredients, reflecting a commitment to both health and taste.

Global Standards, Local Values

As a fully halal-certified manufacturer, Care Food Industries upholds the highest standards of food safety and compliance. The company is certified by the Department of Islamic Development Malaysia (JAKIM) and adheres to rigorous global standards like the FSSC 22000, GMP, and HACCP, ensuring that its products meet the needs of diverse consumer bases, especially in Muslim-majority markets.

Care Food Industries' commitment to sustainability and ethical business practices is also evident in its product sourcing and manufacturing processes. By leveraging modern technology and maintaining strict quality controls, the company ensures that every product embodies the essence of Malaysia's culinary traditions while maintaining the highest standards of freshness, taste, and authenticity.

Innovation and Growth

In addition to its commitment to quality and tradition, Care Food Industries is also a key player in innovation. The company has made significant strides in the development of OEM (Original Equipment Manufacturer) products for global brands, offering custom-made sauces and pastes tailored to different market demands. This has allowed Care Food Industries to expand its footprint across international markets, from Southeast Asia to the United States and beyond.

By consistently pushing the boundaries of food science and automation, Care Food Industries can meet the demands of its growing customer base while remaining true to its Malaysian roots. The company's products are not only loved in Malaysia but have also gained a strong following in countries like the USA, where Malaysian cuisine is becoming increasingly popular.

ENDS

Looking Ahead

As Care Food Industries looks towards the future, the company plans to continue expanding its product offerings, with a focus on meeting the diverse needs of global consumers. The Global 100 award serves as a motivation to further excel in the food manufacturing industry while continuing to promote Asian culinary heritage worldwide.

Care Food Industries expresses its gratitude to its loyal customers, partners, and the entire team for making this achievement possible. The company remains dedicated to innovation, sustainability, and providing delicious, high-quality products that bring people together through the joy of food.
